

# DISC Personality Test

Select the word that most describes you and the word that least describes you. Once you complete the DISC test below, you'll be able to see your DISC type results.

## Disc Test

Disc Type

## The Editor - Cs

People with the Cs personality type tend to be more reserved and solitary. Editors typically limit their contact with others to interactions that are more structured than informal, so they may find themselves hesitant to join in casual group conversations.

### DISC: Enter Your Results or Take The Test

The DISC is a behavior self-assessment tools based on the 1928 emotional and behavioral theory of psychologist William Marston which describes personality through four central traits; **Dominance** (active use of force to overcome resistance in the environment), **Influence** (use of charm in order to deal with obstacles), **Steadiness** (warm and voluntary acceptance of the need to fulfill a request), and **Compliance** (fearful adjustment to a superior force)
